## Kymenlaakso Museum

Providing better exhibitions

Kymenlaakso Museum is a regional museum in southeastern part of Finland. It is in the old harbour area of Kotka city and is housed in the same building as the famous sea museum Wellamo. The fabulous museum building is designed by architect Ilmari Lahdelma. Wellamo opened its doors in 2008 and 118,000 people visited Wellamo in 2018. Of these visitors, 69,000 people viewed the Kymenlaakso Museum exhibitions.

## The Challenge

Kymenlaakso Museum needed to show detailed information about an array of museum artefacts in multiple languages including Finnish, English, Russian and Swedish. In addition, staff needed to be able to implement updated content quickly and easily.

## The Solution

Museum staff created content on pre-made, customised templates employing the easy-to-use content management tool Bolt Open Source Editor. The museum has around 66 ProDVX monitors up-and-running to exhibit the content in five sizes: 10”, 15.6”, 18”, 22” and 32”. These monitors use WLAN to connect to the desired content.

### **APPC-15 & APPC-32**

Commercial Grade 15.6” and 31.5” Android Panel PC (Tablet) with unique features. The ultimate solution for your Interactive Digital Signage, Home Automation, Room Booking and many more applications. The Android DSK range is available in Metal, Plastic and Open Frame enclosure and various connectivity options. Please contact us for all the possibilities for this specific product.

## The Result

Using the Editor, updating content is easy. Because of the WLAN connection updates are speedily implemented. This gives the museum a lot of flexibility around exhibition design. As a result, Kymenlaakso Museum now provides its visitors with an even better exhibition experience.

## About ProDVX

# PRO DVX

ProDVX develops and produces high-quality and state-of-the-art hardware for digital communication and solutions worldwide.

As specialists, we are pioneering when it comes to developing and producing reliable displays and touchscreens. Hardware you can always depend on. Through our extensive range, we can offer an innovative and durable solution for any form of digital communication, such as digital signage, room signage, wayfinding and access control. You will find our hardware everywhere. And a considered combination of price, advice, service and support makes us accessible to all: partners and end users.

Fair prices mean that our products work for everyone and every project. Contact us for advice if you require a solution for a particular situation or need custom-made products (e.g., OEM/ODM). And afterwards, we will naturally provide all the necessary service and support.

So, our end users are guaranteed reliable hardware for their digital communication.

## About Inshop Digital

# INSHOP *Digital*

Inshop Digital is based in Finland. The company delivers professional products to private companies, schools, universities and government institutes in Finland and in other countries in the EU. Inshop Digital has a long-standing relationship with ProDVX, implementing solutions at many organizations.
