PRO DVX | ALWAYS ☒

Introduction Solstice Calendar View

Official certified partner of ProDVX

Mersive Solstice is a meeting room collaboration and content sharing platform which allows users to stream any content from any BYOD device. One of the important features of **Solstice Calendar** is room scheduling support via calendar integration. Any Solstice-enabled display can receive and display calendar data to show the schedule for the meeting space.

Solstice Calendar works with Office365/Microsoft Exchange or with any 3rd party calendaring system via API.

Solution

Solstice CALENDAR VIEW by SimpleAV is a visualisation of room booking status on pre-programmed **ProDVX** touchpanel mounted outside of the room.

Solstice Calendar works with Office365/Microsoft Exchange or with any 3rd party calendaring system via API.
