Learn more about the S-Series

New! First video about the S-Series features

We're excited to announce that, over the coming weeks, we'll be sharing multiple short videos highlighting unique features of our brand-new S-Series. In this first video, our product manager, Sadry, walks you through the key design improvements, including a **slimmer bezel and reduced volume**.

You can download the video [here](#), in the ProClub portal, or request the file via marketing@prodvx.com.

Release notes: API v1.3

ProDVX API v1.3 Release Announcement!

We're excited to announce the release of ProDVX API v1.3, bringing enhanced security controls and expanded compatibility with the S-Series devices — without requiring any changes to existing applications.

What's New in v1.3?

Enhanced security with remote API control

- `/v1/disableRemoteApiCall` – Restricts API requests to localhost/127.0.0.1 only.
- `/v1/enableRemoteApiCall` (default) – Allows both external and internal API requests.

HTTP to HTTPS switching for secure API communication

- `/v1/installApiCertificate` – Install an SSL certificate and switch API calls to HTTPS.
- `/v1/uninstallApiCertificate` – Remove the SSL certificate and switch back to HTTP.

⚠ Note: Reinstalling the SSL certificate will not revert the API back to HTTP mode automatically.

S-Series adaptation & LED enhancements

- New parameter: `ro.controllerLED.type` (retrievable via `/v1/getDeviceInfo`).
- Expanded support for 54 LED rings on S-Series devices using `/v1/setAllLeds` and `/v1/setLeds`.

Important: Domain name setup, SSL issuance, and certificate maintenance remain the customer's responsibility.

For more information about the ProDVX API or to download v1.3, please contact our [support team](#).

Partner events

Explore our products and see our joint solutions in action at the following events!

- **WorkPlace Xperience** - April 15-16, 2025. Rotterdam, Netherlands

Learn how to create a working environment that is productive, healthy, and sustainable. Visit our partners: **GFacility** - stand 16, **Flexwhere** - stand 21, **Bis** with GoBright- stand 11, and explore our joint solutions. And don't forget to say hello to Erik and Bram — they'll be at the event too! Register [here](#).

- **Tech Benelux** - April 15, 2025. Ridderkerk, Netherlands

Van Domburg will host their biggest event of the year where you can see the latest trends and technologies, listen to inspiring keynotes, and network with colleagues. Join Erik and Bram, who will be showcasing our newest S-Series, and explore how our devices can benefit your organisation. Register [here](#).

New case study in healthcare

New digital information system at Solidaris!

Belgian health insurer **Solidaris** has enhanced its customer experience by partnering with MEDIAWAVE and ProDVX to implement an innovative **digital information and feedback system** at its service counters. Our **IPPC-10SLB** is used to streamline document signing, display essential health information, and collect real-time feedback.

This digital upgrade has not only reduced paper usage and minimised errors but also significantly improved workflow efficiency and customer satisfaction. If you want to learn more about this solution, read our case study below.

BConnect
Technologies Ltd

Q2 Price List Now Available!

We have updated our Q2 price list. For more details or to request a copy, please reach out to your account manager or contact us at sales@prodvx.com.

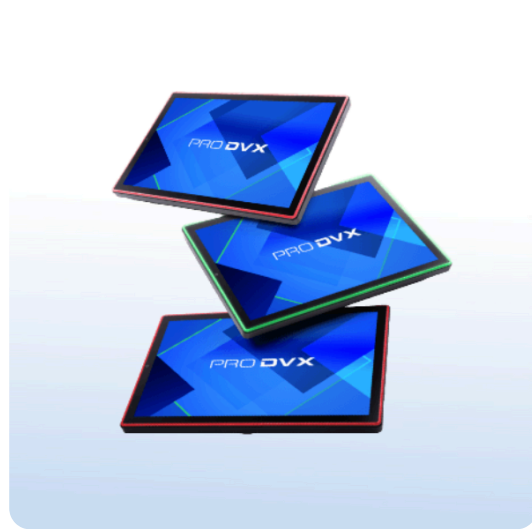

Download the ProMGR user manual

ProMGR is our device management tool. It's designed specifically for ProDVX hardware, providing centralised control, monitoring, and configuration options. Get all the useful information and provided steps for seamless installation and activation by downloading the ProMGR user manual [here](#).

New distributor BConnect

We're happy to announce that **BConnect** is an official ProDVX distributor in Israel! With over 15 years of expertise in connectivity and audio solutions, BConnect is the perfect partner to bring ProDVX's innovative display solutions to the Israeli market.

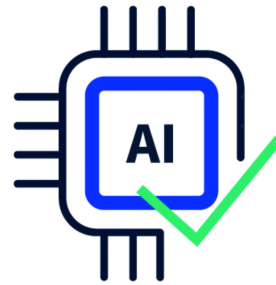

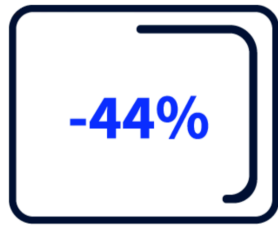

S-Series differences

While all of the S-Series models share a common base - including a slim bezel, a direct-bonded display, and an AI-ready NPU - each model stands out with innovative features designed to meet your specific needs. Explore the key differences and find the perfect fit for your project in our [blog](#).

Marketing news

New S-Series Content Now Available!

We're excited to share new S-Series marketing materials for you to use in your promotions and product introductions. These resources will help you showcase the key features of the new S-Series to your audience. You can easily download the icons by clicking on them below. Additionally, you can access icons in CMYK colours and high quality product pictures in the [portal](#).

If you require any co-branded content, contact us, and we can customise it for you! If you're looking for any content like photos, banners, social media visuals, videos, and whitepapers, check our marketing portal.
