Meeting EU Standards

Compliance with EU Battery Regulations

We are pleased to announce that ProDVX has taken proactive measures to comply with the new **EU Battery Regulation 2023/1542**, ensuring that all our products meet the latest safety and environmental standards. Additionally, ProDVX is currently implementing processes to align with the **EU Packaging Information Compliance** requirements, further supporting our commitment to sustainability and responsible packaging.

A24 Firmware release

Android A24 Firmware Release - What's new?

Our latest A24 firmware has been released, bringing a range of new features and enhancements:

- **Startup Wizard:** Simplifies the initial setup process for an improved user experience.
- **Built-in ProDVX API (v1.2c):** The latest version of our API is now included for seamless integration.
- **Built-in ProMGR (v1.0e):** Available for Android 11 firmware (excluding the ABPC-4200 series) and Android 12 firmware, allowing for enhanced device management.
- **Enable/Disable HDMI-out function:** (Excluding the ABPC-4200 series) – offering more control over your display settings.
- **Bug Fixes:** We've addressed some bugs to improve overall performance and stability.
- The **Disable/Enable Physical button function** is now set to the 'Disable' status by default.

If you have any questions regarding the A24 firmware release, please do not hesitate to contact your account manager or sales@prodvx.com. Additionally, from now on, you can also find more information on firmware releases in the ProClub Portal under 'Exclusive Insights'.

Streamlined conferencing

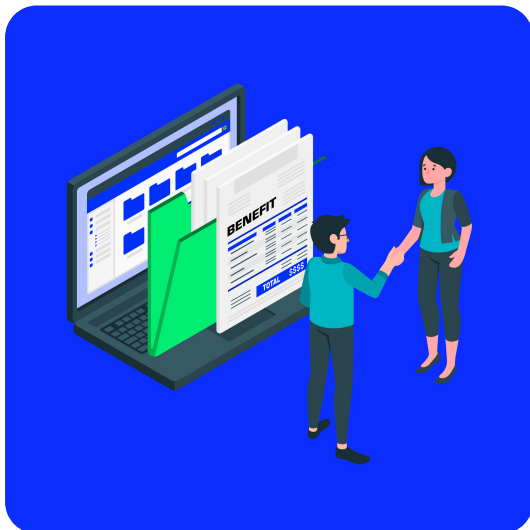

Flexible UI for conferencing with MVI AudioVisual and ProDVX

By integrating MVI AudioVisual's software with ProDVX displays, we ensure our customers experience a seamless and intuitive conferencing environment. The electronic nameplates (UW-24 PoE) and touch panels (APPC-10SLBe), combined with EasyConf Control and EasyConf DelegateUI software, elevate both functionality and the user experience in formal meeting settings. The software is now available for preview, with the official product launch set for later this year.

Watch [this video](#) or read [the solution paper](#) to explore the full benefits of this collaborative solution.

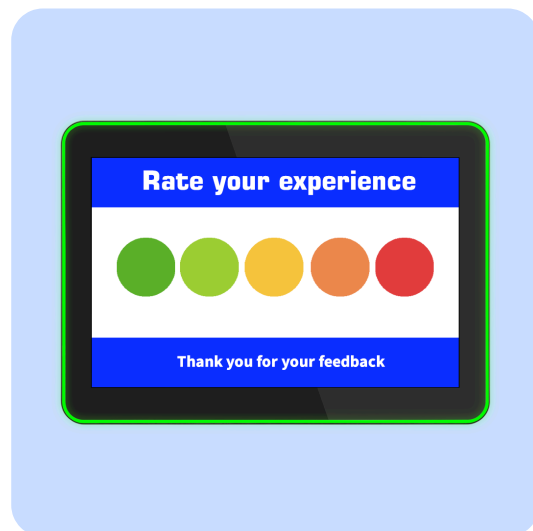

More news

Updated price list Q4

Our updated price list is now available on the [ProClub portal](#) under 'Notifications'. If you have any questions, please do not hesitate to get in touch with your account manager or email sales@prodvx.com.

Request co-branded content

If you require any co-branded content, please [contact our marketing team](#), and we can customise it for you! For any ready-made content like photos, banners, social media visuals, and videos, check our [marketing portal](#).

Build-to-order & End-of-life

From stock to build-to-order

As we have significantly improved the performance of our latest products, some of our previous models are no longer available from stock. [Here](#) you can find an overview of all our build-to-order items.

From build-to-order to end-of-life

As the RK3188 and RK3368(H) CPUs are end-of-life, we can no longer manufacture some of our previous Android devices. This also applies to OEM products using these CPU models. [Click here](#) for the list of end-of-life devices.
